SUMMARY

Full-Stack Developer skilled in React.js, Angular, Tailwind CSS, Laravel, and PHP. Experienced in building scalable, user-friendly web applications, API integrations, and database management. Strong team collaborator delivering optimized, future-ready digital solutions.

WORK EXPERIENCE

Software Developer — Woodotale Furniture Makers Pvt Ltd
May 2024 – September 2025
- Developed dynamic, responsive web interfaces primarily using Angular and backend APIs with Laravel.
- Integrated APIs for real-time updates and seamless user interactions.
- Collaborated with UI/UX teams to design intuitive interfaces and optimize performance.
- While primarily focusing on Angular projects, contributed to React.js-based prototypes for internal tools.

Full Stack Developer (Intern → Full-Time) — Digital Melodic
Jan 2023 – Apr 2024
- Built and maintained React.js and Laravel applications, including an Hospital Management System and CRM with Tailwind CSS and third-party API integrations.
- Designed reusable React components and implemented state management using Hooks and Context API.
- Improved application performance by optimizing component rendering and API calls.
- Collaborated with backend developers to design RESTful APIs and integrate them into the React frontend.

SKILLS

Frontend: React.js, Hooks, Context API, Redux (basic), Tailwind CSS, HTML, CSS, JavaScript, Angular, Flutter
Backend: PHP, Laravel, Node.js (basic), Java, Python, REST APIs
Databases: MySQL, SQL, PostgreSQL
Tools & Others: Git, GitHub, Dart, API Integration, Responsive Design, Performance Optimization
Certifications: CloudNet - Certificate in C, C++, Data Structure & Core Java

PROJECT

MoviX (React.js + Tailwind CSS) – Live Demo | Code
- OTT platform featuring responsive design, dynamic content loading, and third-party API integration.
- Implemented user-friendly navigation, search functionality, and real-time updates.

MeCom (PHP + SQL) – Live Demo
- Household service request platform with real-time request management for plumbing, electrical, and other services.
- Role-based interfaces for users and technicians, including scheduling and feedback features.

Kormabani (Angular + Tailwind CSS + Laravel) – Live Demo
- Implement features to manage recruitment, onboarding, attendance and leaves.
- Automate salary calculations, deductions, tax, and payslip generation.

EDUCATION

2020 - 2023	Bachelor of Computer Application at Techno India	CGPA: 9.22
2019	Higher Secondary from WBCHSE	Marks(%): 67.4
2017	Secondary from WBBSE	Marks(%): 73.71
